For more information, please see the Dia Grande 2026 Privacy Policy.

7. Rules of Participation and Conduct

- The participant undertakes to respect the safety rules and instructions of the organization during the event.
- Access to the event under the influence of alcohol or psychoactive substances is prohibited.

This data is processed on the basis of the performance of the contract and stored for up to 12 months after the event.

2.3 Health Data — Dietary Restrictions

Special Category Data – Requires Explicit Consent (Art. 9 para. 2 (a) GDPR)

The Dia Grande 2026 event includes meals (lunch, snack, dinner, and brunch). To ensure the food safety of participants, we collect, on an optional basis, information on dietary restrictions.

Dietary restrictions motivated by health reasons (allergies, intolerances, medical conditions) constitute health data, which is a special category of personal data pursuant to Article 9 (1) GDPR. Its processing is prohibited, except with the explicit consent of the data subject.

Data	Purpose	Legal Basis	Conservation
Dietary restrictions (allergies, intolerances, prescription diets)	Management of the event's meals; Participant food safety guarantee	Explicit consent of the data subject (Art. 9 para. 2 (a) GDPR)	Deleted within 30 days of the event

Consent to the processing of health data is:

- Optional — failure to provide information on dietary restrictions does not prevent participation in the event;
- Explicit and autonomous — collected through a specific checkbox in the registration form, separate from the other conditions;
- Revocable — can be withdrawn at any time by request for privacidade@esporao.com, without prejudice to the processing carried out previously;
- Shared only with the event's catering subcontractors, under a contract under Article 28 of the GDPR.

Text of the consent presented in the form:

"By indicating dietary restrictions for health reasons, I am providing data regarding my health status. I expressly consent to the processing of this data by Esporão, S.A. and the event's catering service provider, exclusively for the purpose of managing meals. I understand that this data will be deleted within 30 days of the event and that I can revoke this consent at any time."

2.4 Data of Children Under 16

For participants under the age of 16, the processing of their personal data requires the consent of the holder of parental responsibilities or legal guardian, pursuant to Article 8 of the GDPR and Article 16 of Law No. 58/2019.

When it is identified on the form that a participant is under the age of 16, a specific parental consent flow is triggered, in which:

- The holder of parental responsibilities is identified (name and e-mail);
- Explicit and autonomous consent is given for the processing of the child's personal data;
- The holder of parental responsibilities receives clear information on the categories of data processed, purposes and retention period;
- If the minor has dietary restrictions for health reasons, parental consent also covers the processing of such health data in accordance with section 2.3.

The personal data of minors is processed with enhanced safeguards and deleted within 12 months of the event, unless otherwise required by law.

2.5 Image Capture and Use at the Event

Dia Grande 2026 is a public and festive event, during which Esporão and photographers/videographers hired by it make photographic and audiovisual records for the purposes of documentation, institutional communication and promotion of future editions of the event.

2.5.2 Consent to Publication on Social Media

The publication of photographs or videos that individually identify a participant on Esporão's social networks requires express consent. This consent is collected autonomously in the registration form, with the following wording:

"I authorize Esporão, S.A. to capture and publish photographs and/or videos in which you can be identified, taken during the Dia Grande 2026, on Esporão's social networks (Instagram, Facebook, LinkedIn and YouTube) and on the diagrande.pt website, for the purpose of communication and promotion of the event. I can revoke this authorization at any time through dpo@esporao.com, without prejudice to publications already made."

Failure to provide this consent does not prevent participation in the event or the capture of images of a general environment in which the participant may appear incidentally and unidentifiably.

2.5.3 Information at the Event Venue

Esporão will display visible notices at the entrances and at strategic points in the venue, informing participants about the taking of photographic and audiovisual records. The notice will have the following minimum content:

Participants who do not wish to be photographed or filmed in an identifiable manner must:

- At the time of registration: do not give consent to publish on social networks (specific field in the form);
- At the event venue: communicate your opposition to the organization, which will provide a contact point identified for this purpose;
- After the event: request the removal of images in which they are identifiable through dpo@esporao.com, indicating the link or description of the image in question. Esporão will respond within 30 days.

The right to object and the request for deletion are exercised under Article 21 of the GDPR (processing based on legitimate interest) and Article 17 of the GDPR (processing based on consent, after withdrawal of consent).

2.5.5 Images of Minors/Underage

Special regime – enhanced protection for participants under 18 years of age

The capture and use of images of participants under 18 years of age is subject to an enhanced protection regime:

- Children under 16 years of age: the publication of any image in which a participant under 16 years of age is individually identifiable — on social networks, website or any other means of communication — requires the express consent of the holder of parental responsibilities or legal guardian, collected autonomously in the registration form.
- Young people between 16 and 17 years old: the same conditions apply as for adult participants, and the young person himself may give (or refuse) consent to publish on social networks.
- In any case, images that show minors in contexts that may compromise their dignity, security or privacy will not be captured or published.
- Images of minors stored internally are treated with restricted access and deleted within 2 years after the event, unless expressly consented to be kept for a longer period.
